

## What is Go NAP SACC?

Go Nutrition and Physical Activity Self-Assessment for Child Care (NAP SACC) is designed to promote healthy child development by supporting healthy eating and physical activity for the children in your care.

Go NAP SACC looks at your health related policies, practices, and the overall environment of your child care through a self-assessment; based on the assessment, you can decide which areas you want to improve upon.

The **5 key elements of Go NAP SACC** include the following:

1. Complete a Pre Self-Assessment
2. Attend a Go NAP SACC training
  - ✓ It is a state approved training.
3. Develop an Action Plan
4. Reach Your Goals
5. Complete a Post Self-Assessment

Go NAP SACC focuses on 5 main health areas: breastfeeding & infant feeding, child nutrition, infant & child physical activity, outdoor play & learning and screen time. It is designed for providers that care for children from the ages of birth to 5 years old.

### How can Go NAP SACC help child care providers?

- FREE Nutrition & Physical Activity Resources for use in your childcare program and for parent education
- FREE One-on-One Mentoring
- FREE Continuing Education hours
- Receive FREE Incentives upon completion
- Promote Healthy Child Development

## NEBRASKA Nutrition And Physical Activity Self-Assessment for Child Care

### How does Go NAP SACC fit into Step Up to Quality?
